

INSPIRING TEAM

- Over 20 factories in operation worldwide
- Approximately 16,000 employees
- Over 100 direct sales and approximately 350 sales support people located in major markets globally
- 1,700+ engineers & technology professionals

PRODUCT INNOVATIONS PCB/RF/mmWAVE:

- Integrated Mission Systems for Radar, Communications, & Surveillance
- Specialty Radio Frequency ("RF") Products / Integrated Microwave Assemblies
- Custom Designed Microelectronics multi-chip modules & Integrated Circuits ("IC"s) / Radiation Hardened Space Applications
- High-Density Interconnect ("HDI") and Ultra-HDI
- Substrates and Substrate-like PCBs ("SLP") (including CoreEZ® & HyperBGA®)
- Flex, Rigid-Flex & Flex Assemblies / Custom Backplane Assemblies
- High Layer Count / Large Format Printed Circuit Boards ("PCB"s)

INNOVATIVE SOLUTIONS

- Engineering concept & design
- Design to specification, assembly & cost
- Prototype / Pilot
- Ramp to Volume
- Quick Turn Around ("QTA") to Volume
- Volume Production

About TTM

TTM Technologies, Inc. is a leading global manufacturer of technology solutions, including mission systems, radio frequency ("RF") components, RF microwave/microelectronic assemblies, and quick-turn and technologically advanced printed circuit boards ("PCB"s). TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market. Additional information can be found at www.ttm.com.
